 THIS IS A REQUEST FOR QUOTATION
 THIS IS AN ORDER P.O. NO. _____
 ATTN : _____

1) WHICH EXTRUSION IS TO BE USED?

Name extruder, section number and finish to be used. We have most major extruders catalogs and have compiled data on the suitability of most extrusions for curving. We can help in the selection of the proper one for your particular application.

2) HOW IS THE EXTRUSION TO BE USED?

An extrusion's application will determine which one to use. We're able to help if you're not sure.

3) WHAT IS THE FORMING SIZE?

Refer to the illustrations and determine the proper dimensions: Fig. 1 to Fig. 5.

4) NUMBER OF UNITS REQUIRED _____

5) EXTRUSION SOURCE AND PART NUMBER _____

6) EXCESS FOR SET UP _____

7) EXTRA LENGTH FOR GRIP - 24" (12" each side)

8) TEMPLATE SUPPLIED YES NO

9) NOTE: In some cases, certain extrusion Alloy and Temper and brake shape metals are not suitable for curving. We can help in selecting alternatives. Call us, or Fax us a copy of your drawing. This will help us to respond faster and ensure that our response will help solve the problem economically and efficiently.
